

Energy is an important part of our lives. Our *FIRST*® *LEGO*® League heroes know the choices we make impact our world.

Let's start with our community – they need our help!

How do we get energy?

How do we distribute and store it?

How do we consume it?

Your challenge is to improve the energy journey in YOUR community!

Hmm . . . let's identify a problem and design a solution!

We'll need more heroes.

You are SUPER POWERED heroes that can change the world!
